Company Overview

We are currently the largest beauty retailer that provides one-stop shopping for prestige, mass and salon products and salon services in the United States. We focus on providing affordable indulgence to our customers by combining one-stop shopping in convenient locations with the distinctive environment and experience of a specialty retailer.

We believe our strategy provides us with competitive advantages in both normal and challenging economic environments and has contributed to our strong financial performance. We have achieved positive comparable store sales for over ten years and have grown our net sales from \$755.1 million in fiscal year 2006 to \$1.8 billion in fiscal year 2011, representing a compound annual growth rate, or CAGR, of 19%. We have grown our net income from \$22.5 million in fiscal year 2006 to \$120.3 million in fiscal year 2011, representing a CAGR of 40%. We believe that we have performed well through industry cycles due to our unique customer proposition. We generated comparable store sales increases of 10.9% in the 2011 fiscal year and 11.5% for the three months ended January 28, 2012, and we believe that we will generate comparable store sale increases of 10.1% for the three months ended April 28, 2012. Additionally, we realized 69.3% growth in net income for the 2011 fiscal year. Key aspects of our business include:

One-Stop Shopping. Our customers can satisfy all of their beauty needs at Ulta. We offer a unique combination of over 20,000 prestige and mass beauty products organized by category in a bright, open store environment. The beauty products are arranged in self-service displays and full-service boutiques in a way that encourages our customers to play, touch, test, learn and explore. We believe we offer the widest selection of categories across prestige and mass cosmetics, fragrance, haircare, skincare, bath and body products and salon styling tools. We also offer a full-service salon and a wide range of salon haircare products in all of our stores.

Our Value Proposition. We believe our focus on delivering a compelling value proposition to our customers across all of our product categories is fundamental to our customer loyalty. For example, we run frequent promotions and coupons for our mass brands, gift-with-purchase offers and multi-product gift sets for our prestige brands, and a comprehensive customer loyalty program.

An Off-Mall Location. Our stores are predominately located in convenient, high-traffic locations such as power centers. Our typical store is approximately 10,000 square feet, including approximately 950 square feet dedicated to our full-service salon. Our displays, store design and open layout allow us the flexibility to respond to consumer trends and changes in our merchandising strategy. As of April 28, 2012, we operated 467 stores across 44 states.

We were founded in 1990 as a discount beauty retailer at a time when prestige, mass and salon products were sold through distinct channels — department stores for prestige products, drug stores and mass merchandisers for mass products, and salons and authorized retail outlets for professional haircare

products. After extensive research, we recognized an opportunity to better satisfy how a woman wanted to shop for beauty products. This led to what we believe to be a unique retail approach that focuses on all aspects of how women prefer to shop for beauty products by combining one-stop shopping, a compelling value proposition and convenient locations, together with an uplifting specialty retail experience. While we are currently executing on the core elements of our business strategy, we plan to continually refine our approach in order to further enhance the shopping experience for our customers.

We are a Delaware corporation. Our principal executive offices are located at 1000 Remington Blvd., Suite 120, Bolingbrook, Illinois 60440, and our main telephone number at that location is (630) 410-4800. We maintain a website at www.ulta.com. The information contained in, or that can be accessed through, our website does not constitute a part of this prospectus supplement or the accompanying prospectus.

Competitive Strengths

We believe the following competitive strengths differentiate us from our competitors and are critical to our continuing success:

Differentiated merchandising strategy with broad appeal. We believe our broad selection of merchandise across categories, price points and brands offers a unique shopping experience for our customers. While the products we sell can be found in department stores, specialty stores, salons, drug stores and mass merchandisers, we offer all of these products in one retail format so that our customer can find everything she needs in one shopping trip. We appeal to a wide range of customers by offering over 500 brands in the cosmetics, fragrance, skincare, and haircare categories. We also offer exclusive Ulta brand products in key categories. Women of all ages, demographics, and lifestyles are attracted to our broad assortment which spans prestige, mass and salon products.

Our unique customer experience. We combine value and convenient locations with the distinctive environment and experience of a specialty retailer. We cater to the woman who loves to indulge in shopping for beauty products as well as the woman who is time constrained and comes to the store knowing exactly what she wants. Our distribution infrastructure has consistently delivered an in-stock rate of greater than 95%, allowing our customers to find the products they are looking for. Our well-trained beauty consultants are not commission-based or brand-dedicated and therefore can provide unbiased and customized advice tailored to our customers' needs. Together with our customer service strategy, our store locations, layout and design help create our unique retail shopping experience, which we believe increases both the frequency and length of our customers' visits.

Retail format poised to benefit from shifting channel dynamics. Over the past several years, the approximately \$100 billion beauty products and salon services industry has experienced significant changes, including a shift in how manufacturers distribute and customers purchase beauty products. This has enabled the specialty retail channel in which we operate to grow at a greater rate than the industry overall since 2000. We are capitalizing on these trends by offering a primarily off-mall, service-oriented specialty retail concept with a comprehensive product mix across categories and price points.

Loyal and active customer base. We have over nine million customer loyalty program members. We utilize this valuable proprietary database to drive traffic, better understand our customers' purchasing patterns and support new store site selection. We regularly employ a broad range of media, including digital catalogs and newspaper inserts, to entertain and educate our customers and, most importantly, to drive traffic to our stores.

Strong vendor relationships across product categories. We have strong, active relationships with over 300 vendors, including Estée Lauder, Bare Escentuals, Coty, L'Oréal and Procter & Gamble. We believe the scope and extent of these relationships, which span the three distinct beauty categories of prestige, mass and salon and have taken years to develop, create a significant impediment for other retailers to

replicate our model. These relationships also frequently afford us the opportunity to work closely with our vendors to market both new and existing brands in a collaborative manner.

Experienced management team. We have an experienced senior management team with extensive retail experience that brings a creative merchandising approach and a disciplined operating philosophy to our business. We continue to expand the depth of our management team at all levels and in all functional areas to support our growth strategy.

Growth Strategies

We intend to expand our presence as a leading retailer of beauty products and salon services by pursuing the following primary growth strategies:

Accelerate pace of new store expansion and grow to over 1,000 stores in the United States We continue to believe that over the long-term, we have the potential to grow our store base to over 1,000 Ulta stores in the United States. Our internal real estate model takes into account a number of variables, including demographic and sociographic data as well as population density relative to maximum drive times, economic and competitive factors. We plan to continue opening stores both in markets in which we currently operate and new markets. As the economy continues to recover, we have been successful in opening new stores in diverse markets across the United States, allowing us to increase our new store growth rates back to historical levels consistent with our long-term target of 15% to 20%.

We opened 61 new stores during fiscal 2011, representing a 16% increase in square footage growth and a 30% increase in the number of new stores opened compared to 47 in fiscal 2010. We also remodeled 17 stores and relocated 2 stores in fiscal 2011. Our fiscal 2011 and 2010 new store program represents primarily new stores opened in existing centers compared to prior years when the new store openings were more balanced between new and existing centers. This trend is expected to continue for several more years. The shift to more existing centers had no impact on new store performance. For 2012, we plan on expanding square footage by approximately 22% with the opening of approximately 100 new stores.

	Fiscal Year

Average square footage per store	10,399	10,420	10,445	10,526	10,573

Continue expanding our offering by adding new products, brands and service offerings. Our strategy is to continue to expand our portfolio of products, brands and services both by capitalizing on the success of our existing vendor relationships and by identifying and developing new vendor relationships. Over the last several years we have added new products from existing vendors across product categories. We have also added a number of new brands in recent years, most notably in our prestige category which is currently the beauty industry's highest growth category. Brand additions include Mark Jacobs, Givenchy, Taylor Swift, Dolce & Gabbana and Coach in fragrance; Bliss, Clarisonic, Mario Badescu, Jack Black, The Art of Shaving, Dermalogica and Philosophy in skin care; Laura Geller, Butter London, Benefit, Cargo and Tarte in cosmetics; and Living Proof, Phyto, Ouidad and Pureology in haircare. We also offer haircare services in our full service salons as well as skin and brow services in each of our stores. We plan to continue expanding our portfolio of services in the future by establishing Ulta as a leading salon authority providing high quality and consistent services from our licensed stylists and introducing new beauty-related services, such as hair straightening and gel manicures.

Enhancing our successful loyalty program. We have over nine million active customer loyalty members who are enrolled in our loyalty programs. Loyalty member transactions represent more than 50% of our annual total net sales, and the transaction data demonstrates that loyalty members shop with higher frequency and spend more per visit as compared to non-members. We have been converting loyalty members from our national certificate program to the ULTAmate Rewards program which is a points-based program. Currently approximately 50% of our stores are on the points-based program. Both loyalty programs provide a robust database of customer and shopping behavior information which provides a significant long-term opportunity for customer relationship management applications, including enabling customer segmentation and one-on-one marketing communications tailored to our customers' unique beauty needs.

Broaden our marketing reach. We believe a key component of our success is the brand exposure we get from our marketing initiatives, which provide an effective means to introduce new products, brands and services to our existing and potential new customers. We have historically utilized primarily direct mail advertising, catalogues and newspaper inserts to communicate with our customers. Our national magazine print advertising campaign exposes potential new customers to our retail and e-commerce businesses. We plan to continue to leverage our print marketing while expanding our reach into and use of other marketing channels, including various broadcast formats such as radio advertising, as well as digital, social media and e-mail marketing. We plan to continue to focus on our in-store marketing and eventing as an additional means of educating our customers and increasing the frequency of their visits to our stores.

Enhancing and expanding our digital business. Our website serves two roles: to generate direct channel sales and profits and to communicate with our customers in an interactive, enjoyable way to reinforce the Ulta brand and drive traffic to our stores. We continue to aggressively develop and add new website features and functionality, marketing programs, product assortment and new brands, and multi-channel integration points. We intend to establish ourselves over time as a leading online beauty resource by providing our customers with a rich online experience for information on key trends and products, editorial content, expanded assortments, leading website features and functionality, and social media content. Through our continued enhancements and multi-channel marketing initiatives, we believe we are well positioned to capitalize on the growth of Internet sales of beauty products. We believe our website and retail stores provide our customers with an integrated multi-channel shopping experience and increased flexibility for their beauty buying needs.

Improving our operating margins. We plan to continue to improve our operating results by leveraging our existing infrastructure and continually optimizing the efficiency of our operations. We will continue to make investments in our information systems to enable us to enhance our efficiency in areas such as merchandise planning and allocation, inventory management, distribution and point of sale functions. We believe we will continue to improve our profitability by reducing our operating expenses as a percentage of net sales, in particular supply chain, general corporate overhead and fixed store expenses.

Industry Overview

We operate within the large and steadily growing U.S. beauty products and salon services industry. This market represents approximately \$100 billion in retail sales, according to Euromonitor International and IBIS World Inc. The approximately \$59 billion beauty products industry includes color cosmetics, haircare, fragrance, bath and body, skincare, salon styling tools and other toiletries. Within this market, we compete across all major categories as well as a range of price points by offering prestige, mass and salon products. The approximately \$41 billion salon services industry consists of hair, skin and nail services.

Distribution for beauty products is varied. Prestige products are typically purchased in department or specialty stores, while mass products are generally purchased at drug stores, food retail stores and mass merchandisers. In addition, salon haircare products are sold in salons and authorized professional retail outlets.

According to Euromonitor and IBIS World Inc. data, our industry grew at an annual average rate of 0.9% between 2006 and 2011, while we increased our market share by growing net sales at an annual average rate of 18.7% between fiscal year 2006 and fiscal year 2011. In addition, based on Euromonitor and IBIS World Inc. estimates, our industry is expected to grow at an annual average rate of approximately 3.0% through 2016. As a leader in our industry, we expect our organic revenue to exceed the projected industry growth as a result of our off-mall, service-oriented specialty retail concept with a comprehensive product mix across categories and price points.

Recent Developments

Our first quarter fiscal 2012 ended on April 28, 2012. Although our results of operations for first quarter fiscal 2012 have not been finalized, the following preliminary, unaudited information reflects our expectations with respect to our results of operations for the first quarter based on currently available information. These preliminary results are subject to completion and review of our financial statements for the period, and our actual results may vary materially from our estimates. This preliminary financial data has been prepared by, and is the responsibility of, management of Ulta. Ernst & Young LLP has not audited, reviewed, compiled or performed any procedures with respect to such preliminary financial data.

We now expect to report that total net sales for first quarter fiscal 2012 were \$474 million, as compared to our previous guidance of \$452 million to \$460 million. This represents a 22.8% increase from total net sales of \$386 million for first quarter fiscal 2011. Comparable store sales for first quarter fiscal 2012 are now expected to increase 10.1%. This compares to our previous guidance for comparable store sales to increase in a range of 6% to 8%. First quarter fiscal 2011 comparable store sales increased 11.1%. This expected result for first quarter 2012 represents a two year comparable store sales increase of 21.2%.

Income per diluted share for first quarter fiscal 2012 is now expected to be in the range of \$0.52 to \$0.53 reflecting an increase of approximately 42% compared to income per diluted share of \$0.37 for first quarter fiscal 2011. As planned, this expected income per diluted share for first quarter fiscal 2012 includes incremental pre-opening expense from our accelerated new store program which will have a negative impact of \$0.01 on income per diluted share compared to first quarter fiscal 2011. Our previous guidance for income per diluted share was \$0.46 to \$0.48. We opened 18 new stores in first quarter fiscal 2012 compared to five in first quarter fiscal 2011.

The aforementioned references to previous guidance ranges refer to guidance issued in connection with our earnings call held on March 8, 2012 where we issued initial guidance for first quarter fiscal 2012.

On March 8, 2012, we announced that our Board of Directors had declared a \$1.00 per share special cash dividend to shareholders of record as of the close of business on March 20, 2012. The special cash dividend, which totals approximately \$62 million, is payable on May 15, 2012. Investors in this offering will not receive this dividend.

On March 8, 2012, we announced the implementation of a Chief Financial Officer succession plan after Gregg R. Bodnar, our current Chief Financial Officer, advised us that due to a family health issue he will be required to relocate out of state and, as a result, intends to step down from his current position at such time as a suitable successor Chief Financial Officer can be identified. In order to facilitate an orderly transition, Mr. Bodnar plans to remain in his present position pending the appointment of his successor and to assist in the transition of his successor.

RISK FACTORS

Investing in our common stock involves a high degree of risk and uncertainty. Before purchasing our common stock, you should carefully consider the risks described below and in the accompanying prospectus, together with all other information contained in or incorporated by reference in this prospectus supplement, including the risks set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012. Please see “Forward-Looking Statements” and “Incorporation by Reference” in this prospectus supplement and the accompanying prospectus. If any of the following risks or the risks set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 occur, our business, financial condition, results of operations or future growth could materially suffer. In these circumstances, the market price of our common stock could decline, and you may lose all or part of your investment. The risks described below and under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended January 28, 2012 are not the only ones facing our company. Additional risks not presently known to us or which we currently consider immaterial also may adversely affect our company.

Risks Related to our Common Stock and this Offering

The market price for our common stock may be volatile, and you may not be able to sell our stock at a favorable price or at all.

The market price of our common stock is likely to fluctuate significantly from time to time in response to factors including:

- differences between our actual financial and operating results and those expected by investors;
- fluctuations in quarterly operating results;
- our performance during peak retail seasons such as the holiday season;
- market conditions in our industry and the economy as a whole;
- changes in the estimates of our operating performance or changes in recommendations by any research analysts that follow our stock or any failure to meet the estimates made by research analysts;
- investors’ perceptions of our prospects and the prospects of the beauty products and salon services industries;
- the performance of our key vendors;
- announcements by us, our vendors or our competitors of significant acquisitions, divestitures, strategic partnerships, joint ventures or capital commitments;
- introductions of new products or new pricing policies by us or by our competitors;
- small trading volumes and small public float;
- stock transactions by our principal stockholders;
- recruitment or departure of key personnel; and
- the level and quality of securities research analyst coverage for our common stock.

In addition, public announcements by our competitors, other retailers and vendors concerning, among other things, their performance, strategy, or accounting practices could cause the market price of our common stock to decline regardless of our actual operating performance.

Our comparable store sales and quarterly financial performance may fluctuate for a variety of reasons, which could result in a decline in the price of our common stock.

Our comparable store sales and quarterly results of operations have fluctuated in the past, and we expect them to continue to fluctuate in the future. A variety of other factors affect our comparable store sales and quarterly financial performance, including:

- general U.S. economic conditions and, in particular, the retail sales environment;

Table of Contents

- changes in our merchandising strategy or mix;
- performance of our new and remodeled stores;
- the effectiveness of our inventory management;
- timing and concentration of new store openings, including additional human resource requirements and related pre-opening and other start-up costs;
- cannibalization of existing store sales by new store openings;
- levels of pre-opening expenses associated with new stores;
- timing and effectiveness of our marketing activities, such as catalogs and newspaper inserts;
- seasonal fluctuations due to weather conditions; and
- actions by our existing or new competitors.

Accordingly, our results for any one fiscal quarter are not necessarily indicative of the results to be expected for any other quarter, and comparable store sales for any particular future period may decrease. In that event, the price of our common stock would likely decline.

A significant portion of our outstanding common stock is restricted from immediate resale, but may be sold into the public market in the near future. Future sales of our common stock in the public market could adversely affect the trading price of our common stock and our ability to raise capital.

If following this offering our existing stockholders, including our directors and our executive officers, sell substantial amounts of our common stock in the public market, or are perceived by the public market as intending to sell, the trading price of our common stock could decline significantly. As of May 1, 2012, we had 62,883,482 shares of common stock outstanding. These shares are freely tradable in the public market, except for shares of common stock held by directors, executive officers and our other affiliates that will be subject to volume limitations under Rule 144 of the Securities Act.

Subject to certain exceptions, including an exception for the sale of up to an aggregate of 1,000,000 shares of common stock, the holders of approximately 9.1% of our outstanding common stock are obligated not to dispose of or hedge any of their common stock during the 90-day period following the date of this prospectus supplement. After the expiration of the lock-up period, these shares may be sold in the public market, subject to prior registration or qualification for an exemption from registration, including, in the case of shares held by affiliates, compliance with the volume restrictions of Rule 144.

Future sales of substantial amounts of our common stock in the public market, or the perception that such sales could occur, could adversely affect prevailing trading prices of our common stock and could impair our ability to raise capital. We cannot predict the effect, if any, that future sales of shares of our common stock or the availability of shares of our common stock for future sale will have on the trading price of our common stock.

Anti-takeover provisions in our organizational documents, stockholder rights agreement and Delaware law may discourage or prevent a change in control, even if a sale of the Company would be beneficial to our stockholders, which could cause our stock price to decline and prevent attempts by our stockholders to replace or remove our current management.

Our amended and restated certificate of incorporation and by-laws contain provisions that may delay or prevent a change in control, discourage bids at a premium over the market price of our common stock, harm the market price of our common stock and diminish the voting and other rights of the holders of our common stock. These provisions include:

- dividing our board of directors into three classes serving staggered three-year terms;
- authorizing our board of directors to issue preferred stock and additional shares of our common stock without stockholder approval;
- prohibiting stockholder actions by written consent;

Table of Contents

- prohibiting our stockholders from calling a special meeting of stockholders;
- prohibiting our stockholders from making certain changes to our amended and restated certificate of incorporation or amended and restated bylaws except with a two-thirds majority stockholder approval; and
- requiring advance notice for raising business matters or nominating directors at stockholders' meetings.

As permitted by our amended and restated certificate of incorporation and by-laws, we have a stockholder rights agreement, sometimes known as a "poison pill," which provides for the issuance of a new series of preferred stock to holders of common stock. In the event of a takeover attempt, this preferred stock gives rights to holders of common stock other than the acquirer to buy additional shares of common stock at a discount, leading to the dilution of the acquirer's stake.

We are also subject to provisions of Delaware law that, in general, prohibit any business combination with a beneficial owner of 15% or more of our common stock for three years after the stockholder becomes a 15% stockholder, subject to specified exceptions. Together, these provisions of our certificate of incorporation, by-laws, stockholder rights agreement and Delaware law could make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our common stock.

There can be no assurance that we will declare dividends on our common stock in the future and, consequently, your ability to achieve a return on your investment will depend on appreciation in the price of our common stock.

Although we announced a special cash dividend on March 8, 2012 that is payable on May 15, 2012, any future dividend on our common stock, including the common stock offered hereby, will be within the discretion of our board of directors and will depend on, among other things, our financial condition, results of operations, capital requirements, borrowing capacity, capital expenditure requirements, contractual restrictions, anticipated cash needs, provisions of applicable law and other factors that our board of directors may deem relevant. We may not generate sufficient cash from operations in the future to pay dividends on our common stock.

USE OF PROCEEDS

We will not receive any proceeds from the sale of shares of our common stock by the selling stockholders.

UNDERWRITING

The Company, the selling stockholders and Goldman, Sachs & Co. and J.P. Morgan Securities LLC, as representatives of the underwriters, have entered into an underwriting agreement with respect to the shares being offered. Subject to certain conditions, each underwriter has severally agreed to purchase the number of shares indicated in the following table.

<u>Underwriters</u>	<u>Number of Shares</u>
Goldman, Sachs & Co.	
J.P. Morgan Securities LLC	
William Blair & Company, L.L.C.	
Piper Jaffray & Co.	
Total	<u>7,000,000</u>

The underwriters are committed to take and pay for all of the shares being offered, if any are taken, other than the shares covered by the option described below unless and until this option is exercised.

The underwriters have an option to purchase up to an additional 1,050,000 shares from one of the selling stockholders to cover sales by the underwriters of a greater number of shares than the total number set forth in the table above. They may exercise that option for 30 days. If any shares are purchased pursuant to this option, the underwriters will severally purchase shares in approximately the same proportion as set forth in the table above.

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by the selling stockholders. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 1,050,000 additional shares.

	<u>No Exercise</u>	<u>Full Exercise</u>
<u>Per Share</u>	\$	\$
Total	\$	\$

Shares sold by the underwriters to the public will initially be offered at the public offering price set forth on the cover of this prospectus supplement. Any shares sold by the underwriters to securities dealers may be sold at a discount of up to \$ per share from the public offering price. The underwriters may allow, and such dealers may re-allow, a concession of not in excess of \$ per share to certain other dealers. After the initial offering of the shares, the representatives may change the offering price and the other selling terms. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part. The underwriters expect that the selling stockholders will deliver the shares to the underwriters through the facilities of The Depository Trust Company in New York, New York on or about May , 2012. At that time, the underwriters will pay the selling stockholders for the shares in immediately available funds.

The Company, Doublemousse B.V. and other parties have agreed with the underwriters, subject to certain exceptions, not to dispose of or hedge any of their common stock or securities convertible into or exchangeable for shares of common stock during the period from the date of this prospectus supplement continuing through the date 90 days after the date of this prospectus supplement, except with the prior written consent of the representatives. This agreement does not apply to any existing employee benefit plans. Additionally, our named executive officers and directors, other than Mr. Heilbronn, are entitled to sell, in the aggregate, up to 1,000,000 shares of common stock that would otherwise be prohibited under this agreement.

In connection with the offering, the underwriters may purchase and sell shares of common stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering, and a short position represents the amount of such sales that have not been covered by subsequent purchases. A "covered short position" is a short position that is not greater than

Table of Contents

the amount of additional shares for which the underwriters' option described above may be exercised. The underwriters may cover any covered short position by either exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to cover the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the price at which they may purchase additional shares pursuant to the option described above. "Naked" short sales are any short sales that create a short position greater than the amount of additional shares for which the option described above may be exercised. The underwriters must cover any such naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of common stock made by the underwriters in the open market prior to the completion of the offering.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Purchases to cover a short position and stabilizing transactions, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of the Company's stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the common stock. As a result, the price of the common stock may be higher than the price that otherwise might exist in the open market. The underwriters are not required to engage in these activities and may end any of these activities at any time. These transactions may be effected on the NASDAQ Global Select Market or otherwise.

The Company may enter into derivative transactions with third parties, or sell securities not covered by this prospectus supplement to third parties in privately negotiated transactions. In connection with those derivatives, the third parties may sell securities covered by this prospectus supplement, including in short sale transactions. If so, the third party may use securities pledged by the Company or borrowed from the Company or others to settle those sales or to close out any related open borrowings of stock, and may use securities received from the Company in settlement of those derivatives to close out any related open borrowings of stock. The third party in such sale transactions will be an underwriter or will be identified in a subsequently filed prospectus supplement.

The Company's common stock is traded on the NASDAQ Global Select Market under the symbol "ULTA."

ABOUT THIS PROSPECTUS

This prospectus is part of an automatic registration statement that we filed with the Securities and Exchange Commission, or SEC, as a “well-known seasoned issuer” as defined in Rule 405 under the Securities Act of 1933, as amended, or the Securities Act, using a “shelf” registration process for the delayed offering and sale of securities pursuant to Rule 415 under the Securities Act. Under the shelf process, the selling stockholders (or their pledgees, donees, transferees, assignees or other successors-in-interest) may offer and sell, from time to time, an aggregate of up to 11,201,970 shares of our common stock under the prospectus. This prospectus only provides you with a general description of the securities that the selling stockholders may offer. Each time the selling stockholders sell securities, we will provide a prospectus supplement containing specific information about the selling stockholders and the terms on which they are offering and selling our common stock, if required. We may also add, update or change in a prospectus supplement any information contained in this prospectus. To the extent that any statement made in a prospectus supplement is inconsistent with statements made in this prospectus, the statements made in this prospectus will be deemed modified or superseded by those made in the prospectus supplement. You should read this prospectus and any accompanying prospectus supplement, as well as any post-effective amendments to the registration statement of which this prospectus is a part, together with the additional information described under “Where You Can Find More Information” and “Incorporation by Reference” before you make any investment decision.

You should rely only on the information contained in this prospectus or incorporated by reference in this prospectus or to which we have referred you, including any applicable prospectus supplement or free writing prospectus that we file with the SEC relating to this prospectus. Neither we nor the selling stockholders have authorized any dealer, salesman or other person to provide you with information different from that contained in this prospectus or additional information. This prospectus is offering to sell, and seeking offers to buy, shares of our common stock only in jurisdictions where offers and sales are permitted. The information contained in this prospectus is accurate only as of the date of this prospectus, regardless of the time of delivery of this prospectus or any sale of our common stock. Our business, financial condition, results of operations and prospects may have changed since the date of this prospectus or any prospectus supplement or the date of any document incorporated by reference.

FORWARD-LOOKING STATEMENTS

This prospectus and any accompanying prospectus supplement, including the information we incorporate by reference herein or therein, contain “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, and the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, which reflect our current views with respect to, among other things,

future events and financial performance. You can identify these forward-looking statements by the use of forward-looking words such as “outlook,” “believes,” “expects,” “plans,” “estimates,” or other comparable words. Any forward-looking statements contained in this prospectus and any accompanying prospectus supplement, including the information we incorporate by reference herein or therein, are based upon our historical performance and on current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Such forward-looking statements are subject to various risks and uncertainties, which include, without limitation: the impact of weakness in the economy; changes in the overall level of consumer spending; changes in the wholesale cost of our products; the possibility that we may be unable to compete effectively in our highly competitive markets; the possibility that our continued opening of new stores could strain our resources and have a material adverse effect on our business and financial performance; the possibility that new store openings and existing locations may be impacted by developer or co-tenant issues; the possibility that the capacity of our distribution and order fulfillment infrastructure may not be adequate to support our recent growth and expected future growth plans; the possibility of material disruptions to our information systems; weather conditions that could negatively impact sales; and other risk factors detailed in our public filings with the SEC. You are urged to carefully review the disclosures we make concerning the risks, uncertainties and assumptions that may affect our business and operating results, including, but not limited to, the risks, uncertainties and assumptions set forth in our most recent Annual Report on Form 10-K under the captions “Risk Factors,” “Business,” “Legal Proceedings” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and any of those made in our other reports filed with the SEC. Please consider our forward-looking statements in light of those risks, uncertainties and assumptions as you read this prospectus.

Given these uncertainties, you should not place undue reliance on these forward-looking statements. Also, forward-looking statements represent our management’s beliefs and assumptions only as of the date of the relevant document. We may not actually achieve the plans, intentions or expectations disclosed in our forward-looking statements. Actual results or events could differ materially from the plans, intentions and expectations disclosed in the forward-looking statements we make. We undertake no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws and regulations.

THE COMPANY

Unless the context indicates otherwise, references in this prospectus to “Ulta,” “we,” “us,” “our” and “the Company” refer to Ulta Salon, Cosmetics & Fragrance, Inc.

We were founded in 1990 as a discount beauty retailer at a time when prestige, mass and salon products were sold through distinct channels – department stores for prestige products, drug stores and mass merchandisers for mass products, and salons and authorized retail outlets for professional hair care products. After extensive research, we recognized an opportunity to better satisfy how a woman wanted to shop for beauty products. This led to what we believe to be a unique retail approach that focuses on all aspects of how women prefer to shop for beauty products by combining one-stop shopping, a compelling value proposition and convenient locations, together with an uplifting specialty retail experience. While we are currently executing on the core elements of our business strategy, we plan to continually refine our approach in order to further enhance the shopping experience for our customers. We believe our strategy provides us with the competitive advantages that have contributed to our strong financial performance.

We are currently the largest beauty retailer that provides one-stop shopping for prestige, mass and salon products and salon services in the United States. We focus on providing affordable indulgence to our customers by combining one-stop shopping in convenient locations with the distinctive environment and experience of a specialty retailer. Key aspects of our business include:

One-Stop Shopping. Our customers can satisfy all of their beauty needs at Ulta. We offer a unique combination of over 20,000 prestige and mass beauty products organized by category in a bright, open store environment. The beauty products are arranged in self-service displays and full-service boutiques in a way that encourages our customers to play, touch, test, learn and explore. We believe we offer the widest selection of categories across prestige and mass cosmetics, fragrance, haircare, skincare, bath and body products and salon styling tools. We also offer a full-service salon and a wide range of salon haircare products in all of our stores.

Our Value Proposition. We believe our focus on delivering a compelling value proposition to our customers across all of our product categories is fundamental to our customer loyalty. For example, we run frequent promotions and coupons for our mass brands, gift-with-purchase offers and multi-product gift sets for our prestige brands, and a comprehensive customer loyalty program.

An Off-Mall Location. Our stores are predominately located in convenient, high-traffic locations such as power centers. Our typical store is approximately 10,000 square feet, including approximately 950 square feet dedicated to our full-service salon. Our displays, store design and open layout allow us the flexibility to respond to consumer trends and changes in our merchandising strategy.

We are a Delaware corporation. Our principal executive offices are located at 1000 Remington Blvd., Suite 120, Bolingbrook, Illinois 60440 and our main telephone number at that address is (630) 410-4800. We maintain a website at www.ulta.com. The information contained in, or that can be accessed through, our website is not part of this prospectus or any accompanying prospectus supplement.

We have registered over 30 trademarks in the United States and other countries. The majority of our trademark registrations contain the ULTA mark, including, Ulta Salon Cosmetics Fragrance (and design), Ulta.com, and Ulta Beauty and two related designs. All marks that are deemed material to our business have been applied for or registered in the United States and select foreign countries, including Canada. All service marks, trademarks and trade names referred to in this prospectus are the property of their respective owners. We do not intend our use or display of other parties’ service marks, trademarks or trade names to imply, and such use or display should not be construed to imply, a relationship with, or endorsement or sponsorship of us by these other parties.

RISK FACTORS

Investment in our common stock involves a high degree of risk. Before making an investment decision, you should carefully consider the specific risks described under the heading “Risk Factors” in any applicable prospectus supplement and under the caption “Risk Factors” in any of our filings with the SEC pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act, which are incorporated herein by reference. Each of the risks described in these headings could adversely affect our business, financial condition, results of operations and prospects, and could result in a complete loss of your investment. For more information, see “Where You Can Find More Information” and “Incorporation by Reference.”

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the shares of our common stock by the selling stockholders.

DESCRIPTION OF CAPITAL STOCK

The following summary of the rights of our common stock and preferred stock is not complete and is subject to and qualified in its entirety by reference to our amended and restated certificate of incorporation, amended and restated bylaws, third amended and restated registration rights agreement and stockholder rights agreement, copies of which are incorporated by reference to the registration statement of which this prospectus is a part. See “Where You Can Find More Information.”

Our authorized capital stock consists of 400,000,000 shares of common stock, par value \$0.01 per share, and 70,000,000 shares of preferred stock in one or more series, par value \$0.01 per share. Our board of directors may establish the rights and preferences of the preferred stock from time to time, without stockholder approval.

Common Stock

As of May 1, 2012, we had:

- 62,883,482 shares of common stock outstanding;
- an aggregate of 15,757 shares of common stock reserved for issuance upon exercise of outstanding stock options granted under our Amended and Restated Restricted Stock Option Plan;
- an aggregate of 176,507 shares of common stock reserved for issuance upon exercise of outstanding stock options granted under our 2002 Equity Incentive Plan;
- an aggregate of 2,062,594 shares of common stock reserved for issuance upon exercise of outstanding stock options granted under our 2007 Incentive Award Plan;
- an aggregate of 603,733 shares of common stock reserved for issuance upon exercise of outstanding stock options granted under our 2011 Incentive Award Plan;
- an aggregate of 18,056 shares of common stock subject to restriction and forfeiture outstanding granted under our 2011 Incentive Award Plan; and
- an aggregate of 5,059,147 shares of common stock reserved for issuance pursuant to future grants under our 2011 Incentive Award Plan.

Voting Rights

Holders of our common stock are entitled to one vote per share on all matters to be voted upon by the stockholders. Our amended and restated certificate of incorporation and amended and restated bylaws do not provide for cumulative voting rights. Because of this the holders of a majority of the shares of common stock entitled to vote in any election of directors can elect all of the directors standing for election, if they should so choose.

Table of Contents

Dividends

Subject to limitations under Delaware law and preferences that may apply to any outstanding shares of preferred stock, holders of our common stock are entitled to receive ratably such dividends or other distributions, if any, as may be declared by our board of directors out of assets or funds legally available therefor.

Liquidation

In the event of our liquidation, dissolution or winding up, holders of our common stock are entitled to share ratably in all assets or funds remaining after payment of liabilities, subject to the liquidation preference of any outstanding preferred stock.

Rights and Preferences

Shares of common stock are not convertible into any other class of capital stock. Holders of shares of common stock are not entitled to preemptive or subscription rights and there are no redemption or sinking fund provisions applicable to the common stock. The rights, preferences, and privileges of the holders of common stock are subject to, and may be adversely affected by, the rights of the holders of any shares of any series of preferred stock which we may designate in the future.

Fully Paid and Non-Assessable

All outstanding shares of our common stock are validly issued, fully paid and non-assessable.

Preferred Stock

As of May 1, 2012, we had no shares of preferred stock outstanding.

Under the terms of our amended and restated certificate of incorporation, our board of directors has the authority, without further action by the stockholders and subject to the limits imposed by the Delaware General Corporation Law, or the DGCL, to issue shares of preferred stock in one or more series and to designate the powers (including voting powers, if any), preferences, and rights of the shares of each such series and the qualifications, limitations, and restrictions thereof. The authority of the board of directors with respect to each series of preferred stock shall include, but not be limited to, determination of: (i) the number of shares constituting such series and the distinctive designation of that series; (ii) the dividend rate and rights; (iii) voting rights; (iv) conversion rights; (v) rights and terms of redemption (including sinking fund provisions, if any); (vi) liquidation preferences; and (vii) any other powers, preferences, rights, qualifications, limitations and restrictions of such series.

Stockholder Rights Agreement

On October 24, 2007, our board of directors adopted a stockholder rights agreement. Pursuant to this agreement, our board of directors declared a dividend distribution of one preferred stock purchase right for each outstanding share of our common stock to stockholders of record at the close of business on October 25, 2007. Each right entitles the registered holder thereof, after the rights become exercisable and until October 25, 2017 (or the earlier redemption, exchange or termination of the rights), to purchase from us one 1/1000th of a share of Series A Junior Participating Preferred Stock, or Series A share, at a price of \$150.00, subject to certain anti-dilution adjustments. The preferred stock rights trade with, and not apart from, our common stock unless certain prescribed triggering events occur. The stockholder rights agreement is designed and implemented to enhance the ability of our board of directors to protect stockholder interests and to ensure that stockholders receive fair treatment in the event of any coercive takeover attempt. The stockholder rights agreement, however, is intended to discourage takeover attempts opposed by the board of directors, and may affect takeover attempts, including those that particular stockholders may deem in their best interests.

Registration Rights Agreement

Upon consummation of the Company's initial public offering in 2007, the third amended and restated registration rights agreement, which we refer to as the Registration Rights Agreement, with certain of our stockholders became effective. Pursuant to this agreement, certain holders of "Conversion Registrable Securities" (which include shares of common stock issued upon the conversion of previously outstanding convertible preferred stock) may, at any time, subject to certain terms and conditions, require us to file with the SEC and cause to be declared effective a long-form registration statement on Form S-1 or a short-form registration on Form S-3 covering the resale of all shares of common stock held by such persons. Subject to the limitation that we will only be obligated to undertake an aggregate of three long-form registrations and three short-form registrations with respect to the Conversion Registrable Securities, we will be required to undertake such registration:

- Upon the request of the holders of no less than a majority of Conversion Registrable Securities in the case of a long-form registration; provided, that the anticipated aggregate offering price of the Conversion Registrable Securities covered by such registration exceeds \$20 million net of underwriting discounts and commissions; and
- Upon the request of the holders of no less than 25% of Conversion Registrable Securities in the case of a short-form registration; provided, that the anticipated aggregate offering price of the Conversion Registrable Securities covered by such registration exceeds \$5 million net of underwriting discounts and commissions.

Additionally, whenever we propose to register any of our common stock or other securities convertible or exchangeable into or exercisable for common stock, under the Securities Act, the holders of "Registrable Securities" will be entitled to customary "piggyback" registration rights, provided these shares may be excluded from the registration if they cause the number of shares in the offering to exceed the number of shares that the underwriters reasonably believe is compatible with the success of the offering. Other than underwriting discounts and commissions, we will pay all expenses relating to a demand or piggyback registration. We will also pay, or reimburse, the reasonable fees and disbursements of one counsel chosen by the holders of a majority of the "Registrable Securities" included in such registration.

Pursuant to the Registration Rights Agreement, Doublemousse B.V. and Moussetrap have exercised their rights to require us to register 11,029,471 and 92,892 shares of common stock, respectively, on a shelf registration statement, and, the registration statement of which this prospectus is a part satisfies our obligation with respect to these shares that may be offered by Doublemousse B.V. and Moussetrap under this prospectus. In addition, the Company is permitting the 79,607 shares of common stock held directly by Charles Heilbronn to be included in this registration statement. Following our receipt of the demand notice from Doublemousse B.V. and Moussetrap requesting us to file this registration statement, in accordance with the Registration Rights Agreement, we notified a holder of "Registrable Securities" of our intention to file this registration statement and gave such stockholder the right to "piggyback" and register shares of common stock owned by them on this registration statement. The holder of "Registrable Securities" elected not to exercise its "piggyback" registration rights. See "Selling Stockholders" for more information on the selling stockholders.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is the American Stock Transfer & Trust Company.

Delaware Takeover Statute

We are subject to Section 203 of the DGCL. This statute regulating corporate takeovers prohibits a Delaware corporation from engaging in any business combination with any interested stockholder for three years following the date that the stockholder became an interested stockholder, unless:

- prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction that resulted in the stockholder becoming an interested stockholder;
- the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the number of shares outstanding (a) shares owned by persons who are directors and also officers and (b) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- on or subsequent to the date of the transaction, the business combination is approved by the board and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock that is not owned by the interested stockholder.

Section 203 defines a business combination to include:

- any merger or consolidation involving the corporation and the interested stockholder;
- any sale, transfer, pledge or other disposition involving the interested stockholder of 10% or more of the assets of the corporation;
- subject to exceptions, any transaction that results in the issuance or transfer by the corporation of any stock of the corporation to the interested stockholder; or
- the receipt by the interested stockholder of the benefit of any loans, advances, guarantees, pledges or other financial benefits provided by or through the corporation.

In general, Section 203 defines an interested stockholder as any entity or person beneficially owning 15% or more of the outstanding voting stock of the corporation and any entity or person affiliated with or controlling or controlled by the entity or person.

Amended and Restated Certificate of Incorporation and Amended and Restated Bylaw Provisions

Provisions of our amended and restated certificate of incorporation and amended and restated bylaws may have the effect of making it more difficult for a third party to acquire, or discourage a third party from attempting to acquire, control of our company by means of a tender offer, a proxy contest or otherwise. These provisions may also make the removal of incumbent officers and directors more difficult. These provisions are intended to discourage certain types of coercive takeover practices and inadequate takeover bids and to encourage persons seeking to acquire control of us to first negotiate with us. These provisions could also limit the price that investors might be willing to pay in the future for shares of our common stock. These provisions may make it more difficult for stockholders to take specific corporate actions and could have the effect of delaying or preventing a change in our control. The amendment of any of these anti-takeover provisions would require approval by holders of at least 66 2/3% of our outstanding common stock entitled to vote on such amendment.

In particular, our amended and restated certificate of incorporation and amended and restated bylaws provide for the following:

Staggered Board of Directors

Our board of directors is divided into three classes of the same or nearly the same number of directors, each serving staggered three-year terms, which means that only one class of directors may be elected at each annual

Table of Contents

meeting or special meeting in lieu of such annual meeting. These provisions may make the removal of incumbent directors difficult and may discourage third parties from attempting to circumvent the anti-takeover effects of our amended and restated certificate of incorporation and amended and restated bylaws by removing our incumbent directors.

Removal of Directors, Vacancies

Directors or the entire board of directors may be removed from office at any time, but only for cause and only by the affirmative vote of the holders of 66 2/3% of voting power of the shares of stock of the Company then entitled to vote at an election of directors. Vacancies on our board of directors may be filled by a majority of the directors then in office, although less than a quorum, or by a sole remaining director. Each director so chosen shall hold office until the next annual election of directors and until such director's successor is duly elected and qualified, or until such director's earlier resignation or removal.

No Cumulative Voting

Delaware law provides that stockholders are not entitled to the right to cumulative votes in the election of directors unless our amended and restated certificate of incorporation provides otherwise. Our amended and restated certificate of incorporation does not expressly provide for cumulative voting.

No Written Consent of Stockholders

Any action to be taken by our stockholders must be effected at a duly called annual or special meeting and may not be effected by written consent.

Special Meetings of Stockholders

Special meetings of our stockholders may be called only by a majority of the entire board of directors, or by either the Chairman or the President of the Company.

Advance Notice Requirement

Stockholder proposals to be brought before an annual meeting of our stockholders must comply with advance notice procedures. These advance notice procedures require timely notice and apply in several situations, including stockholder proposals relating to the nomination of persons for election to the board of directors. Generally, to be timely, notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the annual meeting for the preceding year.

Amendment

In order to amend the provisions of our amended and restated certificate of incorporation and amended and restated bylaws that are described above in this section, the approval of not less than 66 2/3% of the votes entitled to be cast by the holders of all the then outstanding shares of stock then entitled to vote generally in the election of directors, voting together as a single class. These provisions make it more difficult to circumvent the anti-takeover provisions of our amended and restated certificate of incorporation and our amended and restated bylaws.

Issuance of Designated Preferred Stock

Our board of directors is authorized to issue, without further action by the stockholders, up to 70,000,000 shares of designated preferred stock with rights and preferences, including voting rights, designated from time to time by the board of directors. We currently have 400,000 shares of preferred stock designated as

Table of Contents

Series A Junior Participating Preferred Stock. As of the date of this prospectus, we did not have any shares of preferred stock outstanding. The existence of authorized but unissued shares of preferred stock enables our board of directors to render more difficult or to discourage an attempt to obtain control of us by means of a merger, tender offer, proxy contest or otherwise.

Limitation of Liability and Indemnification of Executive Officers and Directors

Delaware law authorizes corporations to limit or eliminate the personal liability of directors to corporations and their stockholders for monetary damages for breaches of directors' fiduciary duties. Our amended and restated certificate of incorporation provides that we shall indemnify our directors against liability to the corporation or stockholders to the fullest extent permissible under the DGCL. Our amended and restated bylaws provide that we shall indemnify our directors, officers and those serving at the request of the corporation to the fullest extent permissible under the DGCL, including in circumstances in which indemnification is otherwise discretionary under the DGCL. We also maintain director and officer liability insurance. These indemnification provisions are sufficiently broad to permit indemnification of our officers and directors for liabilities, including reimbursement of expenses incurred, arising under the Securities Act.

The limitation of liability and indemnification provisions in our amended and restated certificate of incorporation and amended and restated bylaws may discourage stockholders from bringing a lawsuit against directors for breach of their fiduciary duty. These provisions may also have the effect of reducing the likelihood of derivative litigation against directors and officers, even though such an action, if successful, might otherwise benefit us and our stockholders. In addition, your investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these indemnification provisions.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act, and is, therefore, unenforceable.

There is currently no pending material litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought.

PLAN OF DISTRIBUTION

The selling stockholders (including their pledgees, donees, transferees, assignees or other successors-in-interest) may sell the shares from time to time on any stock exchange or automated interdealer quotation system on which the shares are listed, in the over-the-counter market, in privately negotiated transactions or otherwise, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to prevailing market prices or at prices otherwise negotiated. The selling stockholders may sell the shares by one or more of the following methods, without limitation:

- (a) block trades in which the broker or dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- (b) purchases by a broker or dealer as principal and resale by the broker or dealer for its own account;
- (c) an exchange distribution in accordance with the rules of any stock exchange on which the shares are listed;
- (d) ordinary brokerage transactions and transactions in which the broker solicits purchases;
- (e) by pledge to secure debts or other obligations;
- (f) underwritten offerings;
- (g) directly to institutional investors;
- (h) through agents to the public or to institutional investors;
- (i) privately negotiated transactions;
- (j) through the distribution of the shares by any selling stockholder to its partners, members or stockholders;
- (k) any combination of any of these methods of sale; or
- (l) by any other legally available means, including short sales or through the issuance of derivative securities, including warrants, exchangeable securities, forward delivery contracts and the writing of options on the shares, whether or not the options are listed on an options exchange.

The selling stockholders may engage brokers and dealers, and any brokers or dealers may arrange for other brokers or dealers to participate in effecting sales of the shares. These brokers or dealers may act as principals, or as an agent of the selling stockholders. Broker-dealers may agree with the selling stockholders to sell a specified number of the shares at a stipulated price per share. If the broker-dealer is unable to sell shares acting as agent for the selling stockholders, it may purchase as principal any unsold shares at the stipulated price. Broker-dealers who acquire shares as principals may thereafter resell the shares from time to time in transactions on any stock exchange or automated interdealer quotation system on which the shares are then listed, at prices and on terms then prevailing at the time of sale, at prices related to the then-current market price or in negotiated transactions. Broker-dealers may use block transactions and sales to and through broker-dealers, including transactions of the nature described above. The selling stockholders may also sell the shares in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus, regardless of whether the shares are covered by this prospectus. The selling stockholders have advised us that none of their affiliates are brokers or dealers registered with the SEC but to the extent the affiliates of the selling stockholders become brokers or dealers registered with the SEC, none of them will act as a broker or dealer in effecting sales of the shares covered by this prospectus, unless permitted to do so pursuant to advice received from the Financial Industry Regulatory Authority, Inc., or FINRA.

To the extent required under the Securities Act, the aggregate amount of the selling stockholders' shares being offered and the terms of the offering, the names of any agents, brokers, dealers or underwriters and any
